Objective

Motivated fourth-year B.Tech student in Information & Communication Technology (CGPA: 7.26) with strong Python expertise and working knowledge of Java, experienced in building academic projects and solving coding challenges, and familiar with machine learning principles and end-to-end model building. A quick learner and collaborative team player, eager to deepen technical skills and contribute to hands-on projects or internships.

Education

SASTRA Deemed University, Thirumalaisamudram, Thanjavur	(2022–2026)
B.Tech Information & Communication Technology	CGPA: 7.2642
Sairam Matriculation HSS, Thiruthuraipoondi, Thiruvarur	(2021–2022)
Class 12	92.16
Sairam Matriculation HSS, Thiruthuraipoondi, Thiruvarur	(2019–2020)
Class 10	92.8

Technical Skills

- **Personal Skills:** Communication, Project Management
- **Databases:** SQL
- **Languages:** Python, Basic Java
- **Core:** DBMS, Data Structure and Algorithm

Projects

- LEAF CLASSIFICATION USING CNN WITH SVM AND KNN ENHANCEMENTS** **May 2025**
- Developed a hybrid deep learning model combining CNN with SVM and KNN for automated plant species classification.
 - Achieved up to 99.5 percent accuracy on benchmark datasets (LeafSnap, Flavia, MalayaKew). Applied preprocessing (resizing, normalization, augmentation) to improve robustness against noise and variability.
 - Hybrid models outperformed standalone CNNs by 3–7 percent, with SVM providing optimal decision boundaries and KNN offering strong generalization.
 - Evaluated using accuracy, precision, recall, F1-score, and confusion matrices, confirming improved performance.

Course Certificates

- **Microsoft Excel** [Udemy](#)
- **Cloud Practitioner** [GeeksforGeeks](#)

Achievements

- GeeksforGeeks & LeetCode Practice Personal Achievement** **Ongoing**
- Solved over **75 coding problems** on GeeksforGeeks and LeetCode, improving **coding speed** and **accuracy** in data structures and algorithms.

Mini Project Leadership Skill

- **Challenge:** Final review scheduled one day before end-semester exams, leaving minimal time for preparation.
- **Action:** Coordinated task division and timeline planning across our team of two, held daily stand-up meetings, and prioritized critical deliverables under tight deadlines.
- **Result:** Delivered the project on time, received positive panel feedback for project execution, and achieved strong end-semester exam performance.
