Vedaranyam, Nagapattinam, Tamil Nadu

Professional Summary

B.Tech ICT graduate from SASTRA Deemed University (CGPA: 7.5) with hands-on experience in MERN Stack development and Deep Learning. Associate Software Engineer at Accenture with experience building full-stack web applications and AI-based solutions.

Education

SASTRA Deemed University, Thanjavur **2022 – 2026**
B.Tech – Information & Communication Technology *CGPA: 7.5*

Sairam Matriculation HSS, Thiruthuraipoondi, Thiruvarur **2021 – 2022**
Class XII – State Board *92.16%*

Technical Skills

Languages: Python, JavaScript, Java
Frontend: React.js, HTML5, CSS3 ,TailwindCSS
Tools: Git, GitHub, Postman, Vercel, Render
ML/DL: CNN, ConvLSTM
Backend: Node.js, Express.js, REST APIs
Databases: MongoDB, Firebase, SQL
Core CS: DSA, DBMS, OOP

Projects

Pizza Palace | *MERN Stack, Firebase, Razorpay* | GitHub **2026**

- Built a full-stack food ordering platform that digitizes pizza browsing, ordering, and payment through a centralized workflow.
- Integrated Firebase authentication, cart and order management, Razorpay payments, and an admin dashboard for end-to-end customer and business operations.
- Deployed the MERN application on Vercel and Render, combining customer ordering, payments, and administrative workflows in a single platform.

Fast R-CNN Based Object Detection | *Deep Learning, Fast R-CNN, ConvLSTM, Computer Vision* | GitHub **2026**

- Developed a hybrid object detection pipeline combining contour-based wireframe extraction, ConvLSTM, and Fast R-CNN to reduce redundant visual information.
- Built the frontend with image upload and live camera input for real-time object localization using bounding boxes and class labels.
- Integrated the detection system with backend APIs to deliver an end-to-end computer vision application for real-world object monitoring.

Certifications

- **MERN Stack Development** *Professional Training*
- **Data Structures & Algorithms (DSA)** *Course Completion*

Achievements & Extracurriculars

Project Leadership Recognition **2024, 2026**

- Led a three-member team under extreme time pressure; coordinated daily stand-ups, split deliverables strategically, and received **positive panel recognition** for project execution and presentation quality.

Competitive Programming – GeeksforGeeks & LeetCode **Ongoing**

- Solved **100+ coding problems** across data structures, algorithms, and problem-solving, consistently practising to improve speed and accuracy.
